OpenVPN Inc. Data Collection, Use And

OpenVPN Inc. presents our updated policies to transparently show how we collect, use, or retain your data. By clearly and openly presenting the terms of our policies we hope to maintain the trust and confidence of all our valued customers. Our priority is to educate and make it easy for customers to understand what data we collect, why we collect it, and how we use it.

APP DATA USAGE

OpenVPN Connect is used to create VPN tunnels that connect to Access Servers, Community OpenVPN Servers, and any other third-party service that works with the OpenVPN protocol. OpenVPN Inc. does not have control over these servers, and the data policy of each of these servers are dependent on the owner or operator of the server.

Please contact your server operator or server owner for their current data policy - it is your responsibility to know how your data is handled through a specific server operator. We are not responsible and have no control over servers run by companies or entities other than OpenVPN Inc. or Private Tunnel

Logging Data Usage

The app maintains a log of normal operations on the local device. In some cases, our support personnel may ack you to use the "Share Log" feature to transmit a copy of the log to OpenVPN Inc. for analysis and troubleshooting. The "Share Log' feature will copy the log to your email app. text editor app or any other app you choose - you should examine the log before sending it to OpenVPN and edit out any personal or sensitive information that you do not wish us to access. Sending the log requires an explicit action on your part, and any information you send to us through this method may be retained in our support ticketing system for future reference, unless you explicitly request to delete this information.
